Statement in Relation to the McQuade Affair.

MESSRS. EDITORS—For the benefit of those concerned, and in reply to McQuade's alleged version of the Wilkinsburg affair, I submit the following plain statement of the facts and incidents:

On the day before the police visited McQuade's, information was made before the Mayor, charging McQuade and others with burglary and robbery. About seven o'clock in the evening, our police officers with myself started to arrest the parties. We reached McQuade's house about nine o'clock. Three of the officers were stationed a short distance from the house, while the other one and myself went to the house. My companion rapped at the door, when we heard persons going hurriedly up stairs, from the inside. After another rap, some one in the house asked "what do you want?" The officer replied, "I want to see Mr. McQuade." "Who are you?" said the inmate. "Police officers" was replied. "Go to h—l and drown yourselves," was answered, and then the speaker added, "I can't open that door, come to the other one." I went to the other door, and as I reached for the knob the door was suddenly opened, and I was knocked down and kicked in the mouth, knocking out four of my teeth. One of the officers then ran up and kept the door open, and I crawled into the room. As I raised up I was again knocked down and kicked. I then managed to unlock the other door, and the other officer was about to enter, when he was forcibly hauled in and set upon by several, beating and kicking him. By this time about four more came down the stairs and took part, some one up stairs firing a pistol aimed at the officer at the foot of the stairs. He was aimed at again by some one, when the other officer seized the pistol, the cock coming down on his thumb, inflicting a slight wound which may yet be seen. I then took possession of the pistol, but never used it during the whole of the affray. I had scarcely got to the door when I was knocked out into the yard, and while I lay there one of the officers was knocked down, and three fell to beating and kicking him; when I got up I knocked one of the fellows down, then taking a stick that the overpowered officer had, I hit the fellow that was on top with it twice. By this time we had rather the advantage, when others came up, including McQuade. We then tried to explain our object, as we had done before, when one of them men asked the names of our party, which I gave him, and he wrote them down. I then told him when he could find us, at the Mayor's office. McQuade insisted that the house should be searched. I said we did not come for that purpose, as our warrant did not call for it. He insisted, when one of our party and myself went up stairs, but made no search; we then came down, and seeing other parties coming up we left and came to town. We were all much injured and abused; one of the officers had his coat pierced by a ball. From the resistance made and the refusal to admit us when we announced ourselves as police officers I felt satisfied that we had hit upon the parties called for in the warrant. We were authorized to make the arrest and were disposed to do it in as *peaceable* a manner as we could, till we were resisted and assaulted, when it became our duty, not only to defend ourselves but to overpower if possible our assailants. As to the malicious witticism of the local editor of the *Dispatch*, of yesterday, relative to a whisky flask, I can only say that I had and have no knowledge of an article with which he seems so familiar. I regret that I have been forced into any explanation of a matter in which the public can have but little interest.

WARDEN NICHOLSON, Mayor's Clerk.

Dr. Keyser's Great Medicine Store.

The great *sanitarium* for the city of Pittsburgh is undoubtedly the establishment at the corner of Wood street and Virgin alley, conducted by our friend Dr. Keyser, who, for over thirty years, has devoted his attention to the healing of the sick, especially that class of disease known as *chronic*. There are many lingering illnesses which render those who are their victims more wretched than if subject for awhile to some more acute and violent malady, and these illnesses are just as remediable as any other, if the proper attention were devoted to their treatment.

DR. KEYSER'S BLOOD SEARCHER for all diseases of a non febrile character, having their origin in a vitiated or tainted condition of the blood, has made more cures than any other remedy of modern science. In its great adaptation to this class of maladies it has cured hundreds and thousands of *tetters, scrofulas, ulcers cancers*, liver complaints, dyspepsias, dropsies and various malignant diseases to which it were difficult to give a name, entirely significant of their true character. It is in these cases of blood diseases that DR. KEYSER'S BLOOD SEARCHER has made for itself a name which goes beyond any other remedy of the healing art. It is peculiarly proper at this season of the year that those subject to brashes and weaknesses dependent on the Himacteric changes of the season, should use a few bottles of this harmless tonic and alterative, which will not only render the system innocuous to disease, but will at the same time fortify and strengthen it against its invasion. Country merchants will find in Dr. KEYSER'S BLOOD SEARCHER a medicine that will enable them to do a great deal of good, and save harmless from sickness many persons dependent on them for their supplies. Ask for Dr. Keyser's Blood Searcher, and take no other. To avoid imposition, look for Dr. Keyser's name over the top of the bottle and on the outside label. One dollar per bottle—six for five dollars, at 140 Wood street. Consultation rooms for lung examinations 120 Penn street. Office hours from 9 a. m. until 4 p. m.

The SPEAKER presented a message from the Senate communicating its action on the adjournment of Congress, which was to close the session at 12 o'clock to-morrow.

Mr. SCHENCK offered an amendment to th amendment, which was a modification of the graduated adjournment proposition, the two intermediate steps being the first Wednesday in June and the first Wednesday in September.

Messrs. SCHENCK and LOGAN addressed the House in support of this plan, which was agreed to by 75 against 51.

FOREIGN AFFAIRS—NORTHERN FRONTIER.

Mr. BANKS, from the Committee on Foreign Affairs, reported the joint resolution in regard to claims by foreign governments against the United States for property destroyed by the army of the United States. Passed.

Mr. BANKS also reported a joint resolution declaring that the people of the United States cannot regard the proposed confederation of the Provinces on the northern frontier of this country without extreme solicitude. That a Confederation of States on the continent, extending from ocean to ocean, without first consulting the people of the Provinces, and founded on monarchial principles, cannot be considered otherwise than as in contravention of the traditions and constantly declared principles of this Government, endangering the most important interests and tending to increase and perpetuate the embarrassments already existing between the two governments.

After some discussion the joint resolution was passed.

SYMPATHY FOR IRELAND AND CANDIA.

Mr. BANKS also reported a resolution declaring that this House extend its sympathy to the people of Ireland and Candia in all their just efforts to maintain the independence of States, to elevate the people, and extend and perpetuate the principles of liberty.

Mr. ROBINSON, a member of the Committee, sustained the resolution, at the same time expressing his desire that the language were stronger, saying he expected to introduce into this Congress a resolution recognizing the belligerent rights of Ireland.

Mr. PILE also spoke in favor of Ireland.

Mr. WASHBURNE, of Wisconsin, offered an amendment and additional resolution, declaring that while sympathizing with the people of Ireland, the House believed the present Fenian movement must have been entirely inoperative, and any encouragement to aid by resolution, unaccompanied by force, could only result in involving brave, enthusiastic Irishmen in difficulty, from which their brethren were powerless to extricate them.

Mr. BANKS said that a proposition had been before the Committee and had been rejected, the Committee not deeming that a matter in which it should interfere. He hoped the amendment would not be adopted.

Messrs. FERNANDO WOOD and ELDRIDGE spoke against the amendment, which was rejected—yeas, 10; nays, 127.

The joint resolution was then passed unanimously.

REMOVAL OF COLLECTOR SMYTHE.

On motion of Mr. HULBURD, a resolution was adopted, by 68 to 38, requsting President Johnson to remove Henry A. Smythe from the office of Collector of the port of New York.

RETIRING CURRENCY.

Mr. GRISWOLD asked leave to offer a resolution declaring that of the Treasury notes issued under the act of June 21st, 1864, including fifty millions authorized to be issued for temporary loan, not more than four millions be retired in any one month.

Mr. SPALDING objected.

Mr. GRISWOLD moved to suspend the rules, but the House refused.

THE WOOL TARIFF.

Mr. KELLY asked leave to introduce a joint resolution to amend the act of March 2d, 1867, increasing the tax on imported wool, by striking out of the paragraph commencing with "ford webbing," the words "mixed with silk." The rules were suspended and the joint resolution passed.

REMISSION OF FORFEITURES.

On motion of Mr. BOUTWELL, the President was requested to furnish the House or Judiciary Committee, during the recess, with full lists of all officers and enlisted men who, having forfeited their rights to pay, bounties, &c., had those rights restored, designating the amounts, on whose recommendation and on what representations such remissions of forfeitures were made.

REIMBURSING OHIO AND INDIANA.

Mr. HOLMAN moved to suspend the rules to take from the Speaker's table the Senate bill to reimburse Indiana and Ohio for monies expended in enrolling, equipping and provisioning militia forces to aid in suppressing the rebellion. Negatived—57 to 37, not two-thirds.

SENATE BUSINESS.

A motion to adjourn having been suggested, the Speaker, in reply to a question, stated that he would not, at noon to-morrow, declare the House adjourned, as no conclusive action had been taken on the Senate amendments to supply the deficiencies in the contingent fund.

The Senate bill was taken from the Speaker's table, and the amendment in regard to Indians non-concurred in, and Committee of Conference appointed.

The Senate amendment to joint resolution authorizing the Second Auditor to settle the accounts of officers of the army where they cannot present vouchers on the account of having been held prisoners of war, it was concurred in.

Adjourned.

Orders have been received from Ottowa that volunteers shall drill twice a week.

OTTOWA, March 27.—It is officially announced that the Hons. John E. McDonald and G. E. Carter have been created baronets. The former is now on his way home, and the latter has gone to visit the Pope.

Messrs. Galt and Langrin, the Confederation Commissioners, have arrived home.

Accidents in the lumbering districts are unusually frequent this winter, owing to timber becoming scarce and lumberers being compelled to take it from dangerous places.

FROM IDAHO.

Mining Interests Flourishing—Geological Discoveries—Expected Sensation in the Scientific World.

SAN FRANCISCO, March 27.—Late advices from Idaho territory represent the mining interest in a flourishing condition. Interesting geological discoveries are being made in the Owyhee country. It is expected the developments will create a sensation in the scientific world.

General Crook's command suffered considerably from cold in the Warner Lake expedition. A fight is anticipated soon.

LETTER FROM HARRISBURG.

Correspondence of the Pittsburgh Gazette.

HARRISBURG, March 26, 1867.

The question of consolidation of the cities of Allegheny, Pittsburgh and surrounding boroughs has at length been introduced into the Senate by Mr. Bigham. This was not in accordance with the original programme. Its introduction was assigned for next Thursday, as previously stated, but my letter "let the cat out of the bag," prematurely, it seems, and as opposition to consolidation was expected, action was precipitated and the bill introduced before the Allegheny folks would have time to speak out upon the subject. I favor consolidation with my whole heart, but oppose hasty legislation, and think the members owe it as a duty to their constituents to lay so important a matter before them, in due season, and not seek to snake a bill through by sharp practice, while whole communities are in ignorance of its every feature.

Senator Graham is not in favor of consolidation unless his constituents desire the measure. He declares that he will see to the interests of the Allegheny people in the matter. By this, the worthy gentleman does not mean to kill the bill, but to add such provisos and amendments as will defeat any sharp practice on the part of Pittsburgh. The bill will be printed shortly and will hardly come up for debate before next week. It proposes, at least in my estimation, fair measures to accomplish consolidation, and will hardly meet with any opposition outside of Allegheny city. The bill will pass, but as I have before intimated, it will require the majority *of all interested* before it can effect the widening and lengthening of the boundaries of the "Smoky City."

SUNDAY CAR TRAVELING.

It is not probable that a bill will be introduced before the close of the session to prevent street cars from running on Sabbath days. A movement, it seems, in that direction has been made by some christian gentlemen of your city, but I judge will assume no tangible shape.

KILLED UNCEREMONIOUSLY.

The bill to create four police districts in Pittsburgh, and to give jurisdiction in certain cases to the senior Alderman of each, has been unceremoniously killed. We feel sorry that the exertions of Alderman Strain were not better rewarded. He used much eloquence to secure its passage, and at one time had his point fairly made; but letters opposing the bill poured in, and Senator Graham was constrained to throttle it by objecting it from the calendar. In every other city of equal importance to Pittsburgh, the Mayor is entirely relieved from the jurisdiction which this bill gave to the Aldermen. Consolidation killed 'Squire Strain's bill, as in the event of uniting Pittsburgh and Allegheny, the entire police system must undergo a change.

NOT A "ROOSTER."

The bill to authorize the erection of a bridge across the Allegheny river from Irwin street, was not a "rooster," at least those interested in it did not chose to make it such, and was killed. The legislators couldn't see it from the St. Clair street bridge standpoint, and hence its failure. There was but little opposition to the passage of the bill, and the cause of its killing is a deep mystery to outsiders.

SCHUYLKILL COUNTY.

The fresh tragedies enacted in Schuylkill county seem to have had the effect of arousing the Legislature to a sense of duty towards that region. A bill will pass giving increased police facilities and regulating other matters conducive to the public peace in that District.

SELECTION OF JURIES.

Frequently, in the administration of justice, much difficulty has been experienced in the selection of an impartial jury. If the crime for which a prisoner is to be tried grew out of a political imbroglio, or if the prisoner happen to be a politician of any account, the difficulty of obtaining a fair trial is very great. In some counties where the Republicans are predominant, a Democrat fears to trust his case to the decision of jurors of that school, and *vice versa* with Republicans in Democratic counties. A bill has been introduced in the Senate to provide for a more impartial selection of jurors. It creates two jury commissioners in each county, but only one is to be voted for by the electors. This will give a Democrat and a Republican the offices. As this legislation is demanded, and is so just on its face, there can be no possibility of its defeat.

VISITING PRISONS.

The Allegheny County Prison Association bill, which grants members of that philanthropic body, the privilege of visiting places of imprisonment in your county, upon errands of mercy, will be taken up for action to-morrow. Our members are in favor of its passage. The association has labored nobly for the alleviation of the poor unfortunates who occupy prison quarters in the jail and want to have the right to visit those in the Penitentiary. The prospects of this bill becoming a law will doubtless delight the "young chaplain," and all others interested in the good work of reformation.

CHANGE IN THE SCHOOL LAWS.

The present school laws are to undergo important changes, if the bill amending them be passed. The main alteration is in the manner of selecting and examining the teachers. It is urged that the parties engaged now in "teaching the young idea how to shoot," do not know how to shoot, and a better class of teachers is wanted, especially for the rural districts. I mail you a copy of the bill from which you can make your own extracts.

Abduction.

On Friday night, a lady from Altoona, arrived in the city in pursuit of her adopted daughter, a young girl of sixteen, named Lizzie McCuan, whom she stated to have been abducted from her home and brought to this city. The lady, who is a highly respectable milliner and dress-maker of Altoona, states that some ten years ago she took the missing girl, then a child of six years, from an orphan asylum, and adopted her as her own child. The adopted daughter had lived with her in apparent happiness until last Friday night or Saturday morning, when she left suddenly and came to Pittsburgh, having been enticed away, as the lady believes, by some Pittsburgher. The matter was placed in the hands of the police by the lady, and it was ascertained that on Saturday evening the girl arrived in the city and stopped at the Eagle Hotel, where a gentleman, a railroad official, living in Greensburg, had agreed to pay her board. She had left there Sunday or Monday morning, and her whereabouts were not known. The gentleman was found, and stated that he was at the Manston House on Saturday evening when the girl came there and applied for a room. She had no baggage and was alone, and the proprietor refused her a room. This man got into conversation with her, and learned that she was from Altoona and was acquainted with several people there whom he knew. Being interested in her he took her to the Eagle Hotel, as mentioned, and engaged a room for her until Monday, promising to pay her bill if she refused to pay it herself. On Monday morning he went again to the Eagle Hotel, and learned that the girl had gone, having previously paid her bill. He subsequently saw her again and had some conversation with her. She told him that she had run away from her home in Altoona alone, but that a man came with her to the Mansion House and made her promise to meet him there afterwards. She promised, but was afraid of the man and did not want to meet him. Her present whereabouts are unknown. The adopted mother is in great distress, and is greatly anxious to find the girl. Lizzie is known to have been at Ward's Hotel, in the Third ward, since leaving the Eagle Hotel, and while there is said to have received the visits of an unknown man. She sent, while there, a letter addressed to a Mr. Goodman, at Altoona, and received an answer directed to her in the care of the proprietor of the house. The person referred to above, who interested himself so much in her case, reiterated his statement at the Mayor's office, and will probably be furnished an opportunity of proving that his acquaintance with the girl commenced *after* her arrival in this city. The case at present is in the hands of officers Wilmot, Brown and Hague, of the Independent Police.

The Engagement of Ristori.

In answer to numerous inquiries we would state that Madame Ristori will appear during her brief engagement at the Opera House, in two of her most celebrated characters, *Mary Stuart* and *Queen Elizabeth*. In both she is superbly unapproachable. Other actresses might play them with power, pathos and effect; but none with the consummate insight into the most subtle workings and manifestations of passion which stamp her with the seal of genius. No one who has not seen her can form any just idea of the magnetic influence which she exerts over an audience. Speaking though she does in a language comparatively little known, she can be understood by those to whom her words are but the incomprehensible accompaniment to the lucid expression of her pantomime. Every gesture is eloquent, every play of the features the indication of what, in a strange tongue, she utters. We can think of nothing more felicitly tender, nothing more really grand than her portrayal of the phases of feeling through which *Mary* passes from the placid gentle woman to the outraged Queen. Yet, probably, as a perfect piece of artistic portraiture, she is even superior in *Elizabeth*. Her scene with *Mary's son James*—alters and her successor on the throne of England—when the news of *Mary's* execution reaches them, is the most wonderful example of sustained hypocrisy imaginable. Equally fine is the cat-like mingling of fondness and ferocity with which she plays with and eventually sacrifices *Essex*. But it would be tedious to go into details now. Ristori will be here in a few days and then the public can judge for themselves.

The Whisky Court.

The new liquor law having relieved the Common Pleas Judges (with their entire approval) of the duty of granting licenses, and imposing it upon the County Commissioners, Messrs. Jonathan Neely, George Hamilton and Archibald Pillow (comprising the Board) held court yesterday and heard the applications on file. They were ninety-two in number, forty-nine by parties resident in the city, fourteen in Allegheny, and the remainder, twenty-nine, from about as many different districts. Under the law the licenses now granted will be but for one month, it being required that all licenses shall expire May 15th in each year, and all hereafter granted, unless dated May 1st, will be but for fractional parts of a year. The crowd in attendance was large, exceeding in number that in the Oyer and Terminer, where a homicide case was on trial, the deceased having met his fate through intemperance. Thus, on one side of the Court house license was being given for a traffic, one of the results of which was the subject of legal investigation on the other.

Accident on the Cleveland Railroad.

At about eleven o'clock on Tuesday morning an accident, which nearly ended in fatal results, occurred near Bridgeport, on the Cleveland and Pittsburgh Railroad. The track was being mended at that place and some of the rails had been removed. The workmen had neglected to send back a flag to warn coming trains to stop, and consequently a freight train, of which Mr. Robinson was engineer, had approached so near the spot, before the danger was discovered, that it was impossible to stop it. Mr. Robinson jumped off just as the locomotive rolled over the embankment. He landed in a "dirt car," and instead of being killed, as was to have been expected, escaped with a broken rib, a mashed foot and a badly bruised head. No other person was injured. In the afternoon the injured man was removed to his home in Manchester, where he was attended by Drs. George L. McCook and E. S. Umbstaetter. He is now doing well.

Alleged Attempt at Rape.

Eliza Teichbauch, a young woman residing in the Third ward, Allegheny, came yesterday morning before Mayor Morrison, and made information, charging Wm. Millinger with assault and battery with intent to commit a rape. She alleged that she was coming out of a neighbor's house on Tuesday evening, when she was seized around the waist by the defendant, who endeavored to throw her to the ground, and used threatening language to her. She finally released herself when the defendant slapped her, as she says, twice in the face. She affirms that she did not care so much about his hugging her, but she wanted to teach him that no man could slap her face with impunity. On mature deliberation she decided not to press the suit and the defendant was discharged, after paying the costs of the case.

Extremes Meet.

John Brown is a citizen of East Liberty. (The report that he was living in Boston is incorrect.) He came to town yesterday, and among his purchases procured a tenor drum for his little boy, and took it with him to the Bull's Head tavern, on Second street. There, a man named Green, as Brown alleges, wilfully and maliciously put his foot through the head of the instrument. Green putting his foot into the head of Brown's drum was certainly an extreme measure, and partook of the *dramatic*. Brown made information before the Mayor, charging Green with malicious mischief. Green was arrested, a hearing had last evening, and the defendant held to bail. Altogether a strongly colored case.

"Marching On."

"John Brown" or John A. Brown & Company, have "marched on" to No. 116 Smithfield stree, where they make a rich display of Venitian blinds of elegant style and finish of their own manufacture. The senior member of this firm is a veteran in the business, well known in both cities for many years as a workman of taste and skill and altogether reliable. To their extensive stock of blinds is now added a variety of gentlemen's furnishing goods, so "John Brown is marching on, marching on." See advertisement.

On Tuesday last, a card appeared in the GAZETTE purporting to give the testimony of Mr. J. W. Miller, taken and subscribed by him before Alderman McMasters, in the case of the Commonwealth vs. A. Wiedmann. Mr. Miller requests us to state explicitly that while he did testify in the said case, he did not subscribe his testimony, and that the published statement of what he deposed is incorrect in many material particulars.

We are Indebted to Mr. Hugh Patterson of Kiddersville, Pa., for a club of ninety-five subscribers. We are duly thankful for his kind exertions in our behalf.

Another Case.

On Tuesday night, officer Cupples of the Mayor's police, "went for" another apparent member of the thieving fraternity. The officer was in the vicinity of the Grain Elevator, when he observed a man acting in a very disorderly manner. The man was joined by two others and increased his disorderly demonstrations. The officer remonstrated, when the fellow attacked him with a handy-billy which he had. Officer Cupples succeeded in securing the belligerent, while Chief Campbell, from Harrisburgh, who was at the depot, assisted by keeping off the two comrades. The prisoner was taken to the lock-up and gave his name as Barney Dugan. On being searched he was found to have one thousand and sixty dollars in Confederate money, and three dollars in counterfeit United States currency, besides the handy billy mentioned, and a letter addressed to "Nicholas Shurloch, care of Spencer & Mckay, Pittsburgh," and containing a handsome silk neck handkerchief. Yesterday morning, Mr. Shurloch was found, identified the handkerchief as his, and identified Dugan as a man who came on Monday to board at the same house with him on the corner of Carson and Liberty streets in the Ninth Ward. It turned out that the prisoner's real name was Matthew Nugent. He was committed to jail on a charge of larceny preferred by Mr. Shurloch. Patrick Welsh, another boarder, in the same house, was led, by the fact of the larceny, to examine his trunk, and found that a broadcloth coat worth $40 had been stolen. He also made information against Nugent. Last evening the missing coat was recovered by officer Cupples.

Stole a Watch.

John C. McDowell yesterday made information before Alderman McMasters, charging A. Bennett with the larceny of a watch. The deponent alleges that on Tuesday he lay on the settee at Duncan's boarding house, in the sixth ward, endeavoring to go to sleep. Bennett, another boarder, paid playful attentions to him, rolling him about on the settee, fumbling about his pockets and otherwise disturbing him. At length Bennett went away and McDowell went to sleep. When he awoke his watch was gone. Hence the conclusion seems irresistible, that while McDowell slept Bennett watched. A warrant was issued.

Insane.—An insane man named Luke Kears, residing in Hardscrabble, was yesterday committed to jail preparatory to being sent to Dixmont. He left home on Tuesday and wandered into the watchman's box on the corner of Try and Second streets. The watchman, supposing him drunk, handed him over to officer Wrigley, who conducted him to the lock-up. The man is quite feeble and was very poorly clad.

Riot Among the Coal Miners.—On Tuesday a very serious riot broke out among the coal miners who are on a strike, at Pennstadt, in Westmoreland county, on the Pennsylvania Central Railroad, about six miles from Greensburg. The riot assumed large proportions, and many of the participants were badly hurt. We could learn no particulars.

Omission.—Our court reporter, in reporting the Versailles homicide case, has inadvertently omitted mentioning the fact that H. H. McCormick, Esq., was concerned as one of the counsel for the defense. Mr. McC. had considerable to do in the preparation of the case, and is therefore entitled to due credit.

The McQuade Affair.—In our first column we publish a statement over the signature of Warden Nicholson, Esq., Mayor's clerk, relative to the recent raid at Wilkinsburg. The card thoroughly explains itself.

Attempted Burglary.—An attempt was made on Tuesday morning to enter the residence of Mr. Geo. Keited on Allegheny Avenue, Allegheny, and the burglars became frightened and fled.

Robbed.—On Monday evening a gentleman stopped at a hotel on Liberty street. On getting up in the morning he discovered that his watch and his German room mate had both disappeared.

Committed for Court.—Peter Emgee, charged with attempted burglary, has been finally committed for trial by Mayor McCarthy.

W. A. Gildenfenny, 45 Fifth street, has favored us with a copy of Blackwood's Magazine for March.

Freedmen Mass Meeting at Macon, Ga.—Elections Forbidden Until General Pope Assumes Command.

MACON, GA., March 27.—A mass meeting of freedmen was largely addressed by prominent citizens. The speeches and resolutions were conservative. AUGUSTA, March 27.—Gen. Sweeney, post commander has issued an order forbidding all elections till Gen. Pope assumes command of the district.

Fenian Situation in Ireland.

NEW YORK, March 27.—The *Herald's* correspondence from Ireland contains some additional news of the Fenian situation in Ireland. Quite a number of infantry have been already invalided by the duties of the campaign, and many cavalry horses died from fatigue and exposure to the extreme cold weather. A fight, we are told, occurred between the British troops near Cork, Fenianism being the exciting cause. The men of the 72d Infantry (Scottish) joined with the Irish, when many members of an English Lancer regiment were severely handled. The people of Cork cheered the Scottish soldiers next day.

ANOTHER RAILROAD PROJECTED.

Mr. Michling, the Representative from Armstrong county, has introduced a bill into the Legislature to build a railroad from Kittanning to Walnut Bend, on the Philadelphia and Erie Railroad, in Cameron county. Walnut Bend is, we believe, at or near the point where the P. & E. road leaves the valley of Bennet's Branch of the Sinnemahoning, a distance of about eighty miles northeast of Kittanning and one hundred and twenty-nine miles northeast of this city. The line runs up the valley of the Cowanshannock about eighteen miles eastward through Armstrong county; thence a few miles across the northwestern corner of Indiana county; thence across the southern line of Jefferson county, through which it runs northward, via Punxsutawny and Reynoldsville. Leaving Jefferson county it enters Cameron, and perhaps passes some distance through the eastern part of Elk county. Both Brookville and Ridgeway will be *left some miles to the west.*

Some twenty or twenty-five miles east of Kittanning the line of this road enters the region of white pine, and from that to its northeastern terminus it runs through as fine a lumber region as there is in the State. Many extensive forests of pine and other timber are still there untouched. Much of that region is well adapted to agriculture, and in parts is already well settled and improved. Some of the corporators are men of large means and great energy; and it is said that the owners of property along the line have not only given the right of way, but have agreed to take stock to the amount of one dollar for every acre they own on the line. If this be true, they deserve to have a railroad.

This is pretty nearly the original line of the Allegheny Valley Railroad. That Company did run a line of survey along this very route; but afterwards fixed upon a line a little more to the west—from the mouth of the Mahoning through Brookville and Ridgeway. That was probably the better route as things then stood; but this is better than that as they now stand.

Should this road be made it will give us another through route to Philadelphia and New York, almost as short as the Pennsylvania Central, and better than that for heavy freight, because it will have easier grades. Whether the Pennsylvania Railroad has any hand in this project we are unable to state, for we do not know.

ORATORS FOR THE SOUTH.

In Congressional circles the suggestion is entertained of sending a number of the best Republican stump speakers into the Southern States to address the people on the political issues involved in the Reconstruction programme embodied in the Military Government Act. This thought is a decidedly good one, and if put into practical operation cannot fail of producing beneficial consequences. For many years the aims and motives of the Republican organization, and of its leading men, were systematically misrepresented throughout all the seceding States. It was deemed essential in preparing the people for revolt to inflame their passions and prejudices. This was done with a skill and persistency never surpassed. After the conflict was actually precipitated, the same instrumentality was employed to induce the people to sustain the burdens and sacrifices which became necessary to the continuance of military operations. Since the struggle, definite impressions necessarily remain in the minds of hundreds of thousands, which have no foundation in fact, and which prevent a speedy incoming of an era of good fellowship. It is most desirable that these impressions should be obliterated; that the inhabitants of the South should be made to understand the sentiments and principles of the northern majority, and not be left a prey to their own misapprehensions or to the craftiness of men who have selfish ends to promote by continuing the present alienation. To this end there is no better means than sending representative Republicans into the revolted commonwealths, and obtaining for them a hearing by the masses of the population.

The State election in Connecticut will be held next Tuesday. As parties are nearly balanced, and the issue important both in its nature and relations, the canvass is conducted on both sides with uncommon vigor. The Republicans claim they will re-elect Governor HAWLEY by a majority of a few hundred, but are evidently alarmed respecting the fate of two of their Congressional candidates. One of these, Mr. P. T. BARNUM, the show-man, is having a savage war made on him on account of the tricks he has palmed off upon the public. The New York *Herald*, moreover, rains a shower of missiles upon him because of a sharp game he played on Mr. BENNETT touching the sale and purchase of the old museum site on Broadway. Still, Mr. BARNUM appears to be as full of expedients in promoting his own election as in attracting crowds of people to stare at his wax figures and living monstrosities. If Congress had adjourned on Monday last, as was anticipated, a number of eminent Radicals, members of one or other of the Houses, would have taken part in the popular discussion. The delay in the adjournment has frustrated their intentions. General CARL SCHURZ, who was enlisted in addressing meetings, was called home to Detroit by a telegram announcing the dangerous illness of his daughter.

THE House of Representatives is a crucible which tests the qualities of new men with almost unerring accuracy. General Butler entered that body with much reputation for sharpness both in attack and retort. The popular impression of his powers in that regard was that he was unequalled. His encounters with Mr. Bingham demonstrate that he has found at least a match. Whether either of those gentlemen can gain by the tactics they pursue towards each other, or whether the dignity of Congress is enhanced thereby, are points that each observer will settle for himself.

GEN. CAMERON tried to do a good thing, but failed. He endeavored, in view of the destitution prevailing at the South, to have a bill passed authorizing the Commissioner of Agriculture to use $50,000 of the present appropriation for his bureau in supplying seeds to the Southern States.

THE Republican State Central Committee will meet at the Lochiel House, at Harrisburg, on the 9th of April, to determine the time for holding the next State Convention.

A DECIDED MAJORITY of the people of Philadelphia want the street railroad cars of that city to run on Sunday. A bill was brought before the Senate at the current session to authorize the legal voters to determine by a special election whether they should run or not. When the bill was under discussion some Senators who never had much pity in their lives, had a good deal in their speeches, while other Senators, who make loud professions of religion were careful to be absent when the vote was taken. The bill was defeated. The republican newspapers of Philadelphia generally advocate the running of the cars; and there are indications among the people that this question will enter into the selection of members of the Legislature next fall.

ENTHUSIASTIC CITIZENS of Louisville have claimed for that city a population of 150,000. This estimate proves, like all of its class, to be an exaggeration. A census is now being taken, and the *Journal* gives the results so far attained:

"The returns from seven of the twelve wards have been made, and the total population of these seven is stated at only 38,837—an average of 5,548 to the ward. If only the same average returns should be made from the five wards as yet unheard from, our entire population would appear to be only 66,576. Four, however, of the five to be heard from are very large and populous, and will show a much larger average than the seven have done. Still the whole result must inevitably be a general disappointment."

THE "rum ones" of Boston have a clever way of getting over the strict provisions of the Prohibitory Law. Drinking clubs are formed, each member pays his share for keeping a bar-room supplied with liquor, and is furnished a key to obtain admittance when he pleases. No bar-keeper is employed, and the guzzle is upon the principle of drinking his own liquor, which is no body's business. Only moderate drinkers are admitted into the clubs, and the system works like a charm, successfully outwitting the authorities.

THE election in the State of Rhode Island will be held on Wednesday next. General Burnside is again the Republican candidate for Governor; William Greene for Lieutenant Governor; John R. Bartlett for Secretary of State; Willard Sayles for Attorney General; and George W. Tew for General Treasurer. Thomas A. Jenckes and Nathan F. Dixon, members of the last Congress, are both up for re-election. There is little or no stir in the canvass, for the sufficient reason that the Democrats have no chance.

SOCIETY is fearfully demoralized throughout the country, a necessary consequence from the war, which at this late date is fully developing itself. Our exchanges from all sections teem with recitals of crime, while our own city can be regarded as no exception to the general rule. It seems that our courts of justice no sooner dispose of one lot of villains than a fresh crop springs up to supply their places, and even excel their predecessors in wickedness.

THE Nashville (Tenn.) *Press* says:

"Governor Brownlow and a party of East Tennessee friends, who have been waiting here for the repairing of the road, started for Knoxville on the Saturday morning train. Thousands of loyal men will fondly pray that their great leader may find, in the quietude of home and the pure breezes of the mountains, restoration to perfect health. May good angels protect him, and save that life so precious to all who love Tennessee!"

THE stringency of the money market, together with the general depression of trade throughout the country, will deter many from visiting Europe during the Paris Fair. Some months ago estimates were made that the attendance from this country would be very large, but the calculation has been upset and comparatively few will make the excursion.

THURLOW WEED, in assuming the editorial management of the New York *Commercial Advertiser*, declares that its long-time whig and republican character will, so far as he is concerned, undergo no change. The *Commercial* has for some time been a doughty champion of Free Trade. Mr. Weed commits it to the policy of Protection.

THE members of the Legislature are thinking of increasing their own pay to $1,500 for each session. If they would only make their pay so high that the people would be content with biennial or triennial sessions, their rapacity might be pardoned.

THE New York *Gazette* publishes the following rather striking item among its "personals:" Mr. Milburn, the blind preacher, is now abroad, and under treatment whereby he has strong hopes of recovering his eye sight.

If we mistake not, Rev. Mr. Milburn is lecturing in Detroit.

THERE is a telegraphic story that the Houses of Congress are likely to take such a position that the President can exercise his constitutional prerogative of adjourning them by proclamation. The Houses will commit no such folly.

THE plumbers of Boston are not a square dealing set of men. They recently struck for higher wages and obtained the advance. They now are out upon a strike for the eight hour system without reduction in pay.

THE Prison Agent at Philadelphia states that of the 19,468 commitments, last year, 14,361 were on account of offences traceable directly or indirectly to the use of intoxicating liquors.

THE friends of General Banks have raised a sufficient sum of money to relieve his homestead at Waltham from debt, and to refit and refurnish the house.

THE Colony of exiles from Poland, established in Virginia, ask assistance from lovers of liberty, to place themselves on a firm pecuniary basis.

THE working men of Brooklyn have declared in favor of the eight hour movement.

—The Princess of Wales is in a very critical state. The *Morning Post* asserted the fact in unmistakable language on the 11th, and our information, derived from the highest source, confirms the statement of the *Post* notwithstanding the contradictory paragraphs of the morning papers of the 12th. Dr. Paget, who has been in constant attendance on Her Royal Highness, stated to a private friend on the evening of the 11th, that he feared the formation of abcess in the knee-joint, and that the continual loss of rest from which the Princess was suffering was sufficient to cause great anxiety and alarm to the Royal family. The only circumstance which would lead us to doubt Dr. Paget's report of Her Royal Highness's condition is that the Prince is constant in his attendance upon the hunt and at theatrical performances.

—The act of Congress giving to every disabled inmate of a Soldiers' Home a new suit of clothes each year has been approved by the President and is now the law.

GENERAL NEWS.

—Steamship companies are issuing excursion tickets at rates ranging from $180 to $300 in gold for the round trip to Europe. Thirteen lines are now running regularly from New York. Of these six issue excursion tickets. The fare on the steamers of the London and New York line is $200 in currency to London or Brest and back—tickets available for six months; by the steamer Havana, $250 to 300 in currency, out and back—passengers only being allowed six weeks' time in Europe; by the Great Eastern, $100 to $140 in gold, with a reduction of $20 to passengers returning before August; by the Bremen line, out and back, $210 in gold; by the Antwerp line, out and back, $170 in gold; by the Inman line, out and back, $200 in gold—tickets available for twelve months.

—A singular funeral cortege was observed passing up College street, last Thursday, in Nashville. In all the long train of carriages not a man was to be seen, save the drivers. This was explained by the fact that the remains of one of the demi-monde were in the hearse. Her fallen sisters, however, turned out in full force, and a sermon, appropriate to the occasion, was preached by the pastor of one of our churches, in accordance with the earnestly expressed wishes of the deceased.

—A chap at Davenport has been fined five dollars and costs, sixteen dollars and forty-five cents, for a kiss, to which the kissee had objected.

—A married couple residing at Waverly, near Dubuque, have just applied for a divorce, after living together for fifty-one years.

—Thos. A. Williamson, sentenced for murder to be hung at Pekin, Illinois, last Friday, is respited to the 21st of next June.

—Davenport voted eight mills on the dollar for school-house purposes the coming year, at the late election.

—During the present year from one thousand to two thousand buildings will be erected in Detroit.

—Jas. Sizer, said to be the oldest citizen of Richmond, Va., died on the 18th inst., aged 83 years.

The Cincinnati *Commercial* says that nearly all the thieves now in that city hail from Chicago.

—It is said that the New York *Tribune* is about to expend $250,000 in a new building.

—The London omnibuses have lowered their fares, and adopted the penny-a-mile system.

—A prohibitory liquor bill has been defeated in the Minnesota Legislature.

—The peach buds are reported to be uninjured in most parts of Ohio.

PITTSBURGH, May 19, 1866.

Messrs. Hostetter & Smith:

GENTLEMEN—During a visit to the West, last fall, I contracted chills and fever, which brought me to my bed, and finally terminated in typhoid fever, and confined me to my room for several months, during which time I was physically so prostrated that I almost despaired of ever recovering my health, having almost entirely lost my appetite for days, not being able to eat a morsel, add to which I was distressed with a reeling sensation in my head, and passed many sleepless nights—all from debility caused by my prostrate condition, brought about by fever. At this stage of my condition a friend recommended me to use your celebrated Stomach Bitters, but being morally opposed to the use of stimulants in any form, I at first declined, but afterwards yielded my prejudices, and, after taking the medicine for several weeks, my appetite returned, and with it I am rapidly regaining my former strength and vigor. My sleep (from the loss of which I have suffered much,) has never been better than it is now, and the reeling sensation (before alluded to) has entirely left me. My bowels which were much constipated and irregular, are now quite natural, and in fact, I am glad to say that I feel myself a new man, and tender you this testimonial of my appreciation of your valuable preparation, in order that others, suffering as I have, may avail themselves of its virtues, which prejudice kept me from enjoying for so long a period. I may also add that my physician, after seeing the beneficial effect of your Bitters on me, recommended that I use them regularly.

Yours, very respectfully,
E. BOURNE,
No. 45 Market street.

THE INDIANS AND THE WHITE PINE.

Although long known to the aborigines of America, Dr. George W. Swett, of Boston, has brought into shape for convenient use, a most valuable preparation called POLAND'S WHITE PINE COMPOUND, which for a number of years has given great satisfaction in the cure of all those ailments dependent on an inflamed or irritated condition of the mucous membranes of the animal organism. *For gravel, diabetes, dropsy, chronic bronchitis, nasal catarrh, constipation,* when depending on a debilitated state of the intestines. It is one of the most valuable discoveries recently added to pharmaceutical medicine. It is likewise a most valuable compound for diseases of the kidneys and bladder generally, as any one can satisfy himself upon a single trial. Every one knows the healing virtue of the white pine for sores and ulcers, but Dr. Swett has gone to work and prepared from the sweet inside bark of that valuable tree a compound that will meet every indication where the pine would be valuable.

It is confidently recommended for the following ailments:
Diabetes in young or middle aged people;
Diabetes in old people;
Stoppage of the Urine;
The same difficulty in children during the night;
Gravel, Kidney Trouble in old people;
Ulcerated Kidneys, Ulcerated Bladder;

PITTSBURGH
LIGHTNING ROD WORKS.
MUNSON'S COPPER TUBULAR
LIGHTNING RODS.
With Spiral Flanges.
This Rod has the power to carry off as much electricity as twenty common iron rods; in other words its power is equal to an iron rod of thirty inches in circumference. It has thus far saved every building on which it has been placed, and cannot get out of order. It has taken the first premiums at nearly every State and District Fairs and Institutes, and is endorsed by many hundred Professors in the best Schools and Colleges in the United States. As to its merits in this city, we refer to the following Gentlemen: Prof. George Woods, President Western University of Pennsylvania, and I. C. Pershing, President Pittsburgh Female College.
Among the hundreds of buildings upon which this Rod was erected within the past year in this vicinity we may mention the Locomotive Works, Banner Cotton Mill, Allegheny Flooring Mills; First Presbyterian Church of Allegheny; Second Ward School House, Pittsburgh; City Poor House, Pittsburgh; St. Bridget's Church, Pittsburgh, &c., and many in the surrounding country including the residences of Mr. Robinson, Esquire Jancey, Lawrenceville; N. M. Fulton, McKees port; Wm. Ewing, Frankfort Springs; P. S. & J. N. Large, Elizabethtown; Col. Wm. Miller, Fort Perry; P. Baker, Neville Island; J. Lockhart, Cano Hollow; W. Lewis, Sharpsburg; J. F. Muller, Freedom; Friend Baker, Bakerstown, &c., and we have yet to find a solitary induced, and to which it was attached has been struck. We want lightning rods wherever it is introduced, and for which we have a fair and honest competition to know of an injury by lightning to a building protected by it, with one where it has never been tested. In our experience of more than ten year we have never known of damage to a building protected by rods of our construction. But we feel that in this case was sold, there is no fact better known to communities where attention is called to the subject, than that a great many of the lightning rods in use are worthless. There is the Munson rod, which the iron rods and erected by the same for the public. Price, 30 cents per foot and $3 for points on each rod. Our Agents will go to any part of the country without extra charge.

WHEREAS, It is desirable that the present Market House in the Fifth Ward should be rebuilt and enlarged for the greater accommodation of the citizens of the Fifth and Ninth Wards of the city: therefore,

SECTION 1. *Be it enacted by the Mayor, Aldermen and citizens of Pittsburgh, in Select and Common Councils assembled, and it is hereby ordained and enacted by authority of the same,* That, whenever the citizens of said wards shall subscribe the amount necessary for rebuilding the present market house, in said Fifth ward, and for the purchase of any additional ground which may be necessary for the enlargement thereof, they shall submit to Councils, for their approval or amendment, the plan on which they purpose to erect the same; and when the said plan or plans shall have been approved by Councils, the said subscribers shall appoint three of their members to act in conjunction with a committee of the same number to be appointed by Councils, who shall constitute a committee, to be known as the "Joint Building Committee of the Fifth Ward Market," whose duty it shall be to carry out the provisions of this ordinance and to see that the said market is erected in conformity with the plans approved of by Councils.

SEC. 2. Said Committee shall be appointed to act until the first regular meeting of Councils in January, 1868, or until their successors shall be duly appointed; and during the month of January, in each year hereafter, the Councils and the said subscribers shall appoint a Committee to hold their offices and execute the duties therein enjoined until their successors shall be duly appointed.

SEC. 3. Said subscribers shall be authorized to erect a new Market House on the ground now occupied for that purpose, and to purchase additional grounds if the plans approved by Councils shall require it. All contracts for the purchase of grounds and for the work and material for the erection of buildings shall be made by said subscribers in such manner as they may see proper, subject to the approval and ratification of the Joint Building Committee of Fifth Ward Markets; provided, that the city shall be in no manner bound for their fulfillment.

SEC. 4. If any additional ground shall be purchased for said buildings or market purposes, the title to the same shall be made to the Mayor, Aldermen and citizens of Pittsburgh, and the property shall be vested in said Mayor, Aldermen and citizens of Pittsburgh, subject to the provisions of this ordinance, and upon the fulfillment of the terms herein provided, shall become vested in said Mayor, Aldermen and citizens of Pittsburgh absolutely.

SEC. 5. When said Market House shall have been erected in conformity with this ordinance, said Joint Building Committee shall establish rules and regulations for the government of the same, and submit the same to Councils for approval or amendment, and it shall be the duty of the Joint Building Committee to elect a Superintendent of said Fifth Ward Market House, whose duty it shall be, under the direction of said Committee, to take charge of said building, attend to opening, closing, cleansing and repairing the same, letting on and shutting off the gas, collect all rents and pay all moneys so collected to the Treasurer of the Fifth Ward Market House Association, and also perform all other duties which may be assigned him by said Joint Committee.

SEC. 6. That no repairs or alterations whatever shall be made by any one excepting said Superintendent and only by him, by and under the special directions of said joint committee; and that the said superintendent, for all repairs and alterations made by him, shall produce his vouchers to said joint committee, which, when approved and countersigned by the President of said joint committee, shall be paid by the Treasurer of said Association.

SEC. 7. That it shall be the duty of said joint committee to establish the salary of said superintendent, and to take bonds for the faithful and honest performance of the duties assigned him; and said joint committee shall have full power to dismiss said Superintendent at pleasure.

SEC. 8. That the aggregate cost of the construction of the New Market House to be erected, including the cost of drawings, superintendence, and other incidental charges and purchase money of any lot or lots of ground, shall be fully adjusted and fixed by said joint committee, and that the interest to be allowed to the subscribers to the fund for the building of said Market House shall be computed from the time the several instalments were paid to the Treasurer of the said Association; and that the Joint Committee shall issue to said subscribers certificates of stock, or such other evidences of indebtedness for subscriptions as they may deem right and proper. And the Treasurer of said Fifth Ward Market House Association, after first deducting the cost of repairs and other necessary expenses, shall pay over the proceeds of said Market annually, in the month of December, to the respective subscribers of said Market in proportion to their respective subscriptions, until they shall be fully reimbursed the principal and interest of the amounts respectively subscribed and paid by them.

SEC. 9. That whenever the provisions of the eighth section of this ordinance shall have been fully complied with, the said Market or Market House, with the grounds attached to the same, shall become the property of the city, together with the revenue and emoluments arising therefrom, and the duties and powers of said Joint Building Committee shall cease and determine.

SEC. 10. That the accounts of the Fifth Ward Market House Association shall be annually exhibited to the Auditing Committee of Councils, under oath, to be by them audited and reported upon in the same manner as the city accounts usually are.

COURT OF OYER AND TERMINER, &c.

Before Hon. James P. Sterrett and Thos. Mellon.

This Court met Wednesday morning at nine o'clock, when the

VERSAILLES HOMICIDE CASE.

—Comth vs. John and Luther Way, brothers, indicted for the murder of William Doods, in Versailles township, December 16, 1866, —was resumed.

The evidence for the Commonwealth having closed, the District Attorney consented to a verdict of "not guilty" being given in the case of Luther Way, indicted as accessory, the testimony exculpating him, and the defense desiring to use him as a witness.

The case on the part of defense was opened by A. G. Cochran, Esq., who stated that the evidence so far elicited would not justify the conviction of more than the lowest degree of homicide, but they would claim an acquittal on the additional evidence to be produced, on the ground of self-defense.

Daniel Carpenter was sworn: Saw Way running and Dodds after him. Dodds returned to the tavern and said he was hurt. He had been drinking quite freely.

Luther Way was called: Am fifteen years of age; was standing beside my brother John when the difficulty occurred. Dodds was in the tavern taking off hats; he took off mine. Sarber struck my brother several times and kicked him when he was down. Dodds came up and asked my brother who the h-ll he was fighting with—said he would have to whip him as he (Dodds) was a friend of Sarber's; my brother said he did not want to fight, when Dodds struck him in the face and knocked him back against the wheel of the wagon. My brother retreated, Dodds following him. Wier, the keeper of the tavern, caught Dodds, saying "you must not strike that man again, he has been beaten enough." Dodds broke away and again made for my brother, who was still retreating and who warned him to stand back three or four times, saying that he would strike him with the pick if he come on. Dodds stooped to run in, when my brother struck him with the pick, and then ran, Dodds following with the pick in his hands. I got the pick, about the porch of the tavern, while the fuss was going on. The difficulty with Dodds occurred about two minutes after my brother had been knocked down by Sarber. Don't know whether I handed my brother the pick or whether he took it from me. I was near my brother when he retreated and warned Dodds not to come on or he would kill him. My brother was bleeding at the nose and his mouth and cheek were skinned and bleeding when Dodds struck him. I was much confused and frightened at the time.

Henry Wier (brother of the tavern-keeper) testified: Luther Way came off the porch with a pick in his hand, and the next thing I saw John Way had it, and warned Dodds not to come on; saw Dodds break away from John Wier and reach for John Way, when he was struck with the pick.

The testimony closed with that of John Croxel and 'Squire Pershing, of Fayette county, who testified they had known the prisoner from boyhood, and that his reputation for peace was good.

The jury were addressed by W. C. Moreland, for the prosecution, who was followed by Thos. M. Marshall, for the defense, District Attorney Duff closing the argument in the case. After recess, Judge Sterrett charged the jury, and at 2:45 a verdict of "not guilty" was returned, the belief obtaining that the killing was done in self defense.

Crier Patterson promptly checked demonstrations of approval of the verdict, his command "order, gentlemen," being given in the nick of time, as the foreman of the jury, Mr. George Fortune, responded "not guilty" to the inquiry of clerk Morrow. Proclamation was made and the prisoner discharged from custody.

WIFE DESERTERS RELEASED.

William H. Kent, arrested in Birmingham, living with a woman not his wife, and committed to jail for deserting his lawful spouse, who came all the way hither from Canada in pursuit of him, was sent for with a view to his release. His case was heard by the Court some days since, when the fact of his desertion was made manifest. He had stated to his wife that he would support their child, an infant which she bore in her arms, but would have nothing to do with her. The Court, being undecided what to do in the matter, remanded the defendant for further consideration. It appearing, however, that Kent and his wife had some talk, and had arranged their affairs, the former promising to return to his allegiance, and the latter expressing her willingness to take him back and forget and forgive, the Court assented to the arrangement and released Kent, requiring him to enter into recognizance in a stated sum for his appearance at next term.

Owen Mack, another wife deserter, committed to jail in default of payment of costs, was also released, having been imprisoned for the requisite length of time.

COLORED LARCENISTS.

Edward Scott and John Johnston *alias* Brown, were placed on trial for the larceny of clothing from Esau Reed, also colored. The prosecutor was in the employ of Mr. Joseph Walton, in East Birmingham, and occupied an apartment in the stable of his employer as a sleeping room, from which the clothing was taken, on the night of the 11th of February. Subsequently Reed saw Scott at a "party," wearing some of the stolen articles, and the next day had him arrested. The clothing and a valise, also stolen from Reed, were found at Scott's house, where Brown, it was alleged, left the property, Scott retaining them for boarding due by Brown. The case had proceeded for some time and several witnesses had been examined before the Court discovered that one of the defendants, Brown, was without counsel, whilst the other, Scott, had R. S. Morrison and A. G. Cochran, Esqs., attending exclusively to his interests, greatly to the detriment of Brown, whose guilt the District Attorney was having established by the efforts of Scott's counsel. The Court, recognizing the right of Brown to a fair defense, assigned William Linn, Esq., to attend to his case. The evidence being concluded, Mr. Cochran addressed the jury. The facts, as he understood them, were: the prosecutor, Reed, had his clothing stolen; it was brought to Scott's house by Brown, and "confiscated" by Scott for boarding due and unpaid by Brown; Scott had worn some of the stolen and "confiscated" clothing, and had most of it in his possession. There was no guilt on the part of Scott, it not being shown that he had any knowledge of the larceny, or that he had not reason to believe that the clothing belonged to Brown, and therefore should be acquitted. In convicting Brown, which it seemed the jury must do, they might recommend him to mercy. Mr. Linn thought Mr. Cochran's proposition quite cool. The jury were to acquit his man, Scott, and convict Mr. Linn's man, Brown, but might recommend him to mercy. The case as tried was a sort of tripartite arrangement, a "three-cornered country cut handkerchief." While he (Mr. Linn) was endeavoring to have Brown acquitted, the other counsel were assisting the Commonwealth to convict him, in order to acquit their man, Scott, while the District Attorney was trying to convict both parties. Under the rule of law, said the Court, the evidence as to the property being found in the possession of both parties, would go to show their guilt, unless satisfactory explanation was given as to how the possession was acquired. One of the defendants, Scott, had endeavored to make such explanation, which if considered satisfactory, should secure his acquittal and the conviction of Brown, who had not attempted to account for his possession of the property. The jury found Scott "not guilty" and Brown "guilty." Sentence deferred.

PLEADED GUILTY.

Ann Krugh plead guilty to an indictment for stealing a pocket book, containing money, and some knives and forks, clothing, &c., the property of John A. Erbe, at whose house, in Scott township, she was employed as a domestic. The defendant is but recently from Germany, and was married a short time before committing the larceny. She was remanded for sentence.

SELLING ON SUNDAY.

John Moran was put on trial on an indictment for selling liquor on Sunday, May 20th, 1866. Arthur Donnelly, the prosecutor, could not fix any particular date, believed it was in May or April. Being asked where he was residing, he said "Where I never was before in my life, sir; I am living in jail, owing to a respectable bit of perjury committed here the other day." "In your opinion," said counsel.

Mr. Donnelly was prosecutor in an assault and battery case, tried a few days since, the transaction occurring at Moran's tavern, the Washington House, in the Diamond. The jury acquitted, dividing the costs. Mr. D. was also complainant against Moran for surety of the peace, in which he was also assessed to pay the costs. His feelings were decidedly "forninst" the Moran family, and although he now had three suits against them, said he would have "three and twenty" if he could get the men who drank whisky at the "Washington" on Sunday during the last two years to testify.

Martin Kirk, of Oakland, was a witness for the prosecution, not a remarkably knowing one. He was with Donnelly on the Sunday spoken of, and got a drink of liquor somewhere in the Diamond; did not know certainly what kind of liquor it was; could not tell exactly where the tavern was; didn't know who kept it. Donnelly had asked him to come and swear against Moran; did not come until he was sent for. As he left the stand he said he had lost some time and wanted pay for it. The case was on trial at adjournment.

Small Defendants.

On Tuesday evening, Stephen Fahr, residing at the Point, came to the Mayor's office and made information charging James Maloney, Michael Maloney, Teddy O'Donnell, Martin Foley No. 2, and James Lee with disorderly conduct. Warrants were issued and placed in the hands of an officer who accompanied the deponent to the Point. The officer was considerably surprised when the deponent pointed to a little boy about five years old, being carried on the shoulders of another little boy of seven, and informed him that the five year old was one of the prospective prisoners. He was still more surprised to learn that all the nine defendants were children ranging from five to eight years of age. The parents of the children were notified, and they were sent to the Mayor's office. After a hearing they were reprimanded by His Honor and sent home.

Odorous.—A young lady in Cleveland having been afflicted by a frightful odor for several days, which repulsed her friends, at last discovered in her waterfall a dead mouse. It had been placed there by a mischievous brother.

Committed.—Laidy Edwards was yesterday committed to jail, by Alderman Nicholson, to await a hearing to-day on a charge of keeping a disorderly bawdy house.

Almshouse Statistics.

The Philadelphia *Ledger* says: On this never ending subject, which forces itself on the attention and ought to occupy the serious thoughts of every citizen, we have two reports before us. The first is by the Guardians of the Poor of Philadelphia for the year 1866; the second comes from the Trustees of the Poor of Baltimore for the same year. The statement which first meets our eye in the report of our own Guardians is that of appropriations for the year 1866, exhibiting an amount of $447,250, and specifications of the total of the several sums required for the different departments, viz: Hospital, Insane, Manufacturing, and for the Children's Asylum, Farm, and Blockley Estate, relief of the out door poor and out door expenses. The largest sum, $235,550, is for the "house generally." The highest average pauper population in the Almshouse for the last eleven years was that for 1866, and counts 3,075. The number of admissions in the year was 8028. "A large percentage of those in the house should not justly be considered as of the deserving poor, but should be classed, treated and punished as vagrants." A house of correction, so long wanted and urgently asked for from different quarters, is at last to be built, and will provide a remedy for this evil, which presses heavily, also, on the County Prison. It is estimated that a house of correction of proper capacity would relieve the Almshouse of from 800 to 1000 of its population.

The report of the Trustees of the Poor of Baltimore announces the completion of a new almshouse, which includes commodious apartments for the insane, who were in consequence brought from the Mount Hope and Maryland Hospitals—an arrangement which saves to the city $18,000. The amount required to support the institution is estimated at $74,150. The number of persons admitted to the Baltimore Almshouse in 1866 was 1972, of whom 684 were foreigners. Germany furnishing 278, and Ireland 312. The entire number in the house at the end of the year was 792. Under one year of age the admissions were 98, and between 90 and 100 years, three.

We have no special information as to the mode of administering the almshouse system of Baltimore, but it would seem from the figures above given as to the average number of paupers in that house and in our own, and the annual expense of supporting each of the two establishments, that there is much greater economy in Baltimore than here, notwithstanding the general belief that Philadelphia has reached the highest point of economy in this respect.

—The speculation for a further decline in gold is not very decided, owing, it may be to the scarcity of the cash gold, while the speculation in the opposite direction is checked by the heavy surplus in the Treasury, and the chances of further considerable sales should the advance tempt the Secretary of the Treasury to turn part of this surplus into currency for the reduction of the public debt. His purchases and conversions of the Seven-Thirties were quite large through the week, though not to the extent of reducing his balances materially. The other disbursements of the week, as reported from Washington, were about equal to his internal revenue receipts.

—Mr Morrill's gold bill excites little comment on the street, apparently from its proposals being considered so extreme that the measure is deemed certain of defeat. The proposal to require the Treasury to suspend the sales of gold, with a view to the resumption of specie payments, is thoroughly sound in principle; but its effect is nullified by the rash requirement that the hoarding shall be continued until the reserve of coin reaches the enormous total of $200,000,000. No such reserve is necessary as a basis of resumption; on the contrary, the amount now in the Treasury is sufficient to meet all emergencies that might arise in that event. Beside, the excluding of the public from the coin in the Treasury, for the purposes of customs duties or of export, would operate injuriously upon the premium, and expose the gold market to speculation without check. It is true, the supply from California would be about sufficient to meet the ordinary export demand; and the receipts from other sources, estimating them at $50,000,000 per annum, might in all probability, be equal to the difference between the requirements for customs and the disbursements of coin interest on the debt. But, in the event of either an unusually large export or an extraordinary demand for customs, the market would be utterly drained of gold, and a few speculative holders of coin could put up the premium to what figures they please. Such a tying up of the coin of the country is not to be for a moment thought of; and Mr. Morrill could have conceived of no scheme better adapted for aiding the *bulls* in gold. It would require two or three years to effect the accumulation of $200,000,000 by this process; and during the interim, instead of a steady approach of gold to par, we should have a wilder speculation in the gold room than at any period since the suspension of specie payments.—*Phila. PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE,
WEDNESDAY, March 27, 1867.

There was a fair degree of activity manifested in the produce markets to-day, the demand for most of the leading articles being quite active, and especially is this the case in regard to Grain, which is excited and in demand, both for home use and shipment. So far as prices are concerned, however, there are no changes worthy of special notice, though generally speaking, the tendency seems to be upward.

GRAIN—Wheat is in light supply and firm; No 2 may be quoted at $2,65 to $2,70, and No 1 at $2,85@2,90. Corn is steady, and we continue to quote at 73 to 75 for Ear, and 78 to 80 for prime shelled. Oats firm at 53 to 55, on track, and 55 to 58, in store. Sale of 1 car Rye at $1,40. Barley is in demand with sales of Spring at $1 to 1,10.

FLOUR—Is firm with an upward tendency but unchanged. We continue to quote at $12,50 to $13 for Spring Wheat; $13,50 to $14,50 for Winter Wheat; and $16 to $17 for fancy brands. Rye Flour, $7,75.

PROVISIONS—Bacon is firm with a steady jobbing demand at 10¾ to 10½ for Shoulders; 12 for Ribbed Sides; and 16 to 16½ for Sugar Cured Hams. Sales to the trade of 12,000 lbs Ribbed Sides at 11½; 3,000 do at 11¾; 5,000 lbs Shoulders at 10; and 2000 lbs Plain Hams at 14. Lard is quoted at 13. Mess Pork held firmly at $23 to $23½.

MILL FEED—Sale of 5 tons Middlings at $2, and 10 tons do, to arrive, at $1,90. The stock of Bran, Shorts and Seconds in this market is light.

HAY—Prime Timothy Hay is in demand, and sells readily on arrival at $24 to $25 per ton.

BUTTER—Prime Roll is scarce and in demand, and we continue to quote at 33 to 35 for prime, and 36 to 38 for choice, in small packages. Common Butter is dull and in good supply.

EGGS—Quiet and unchanged—supply somewhat in excess of the demand. We can report sales at 19 to 20.

GREEN APPLES—There is a very good demand for prime to choice Apples, and but few of this kind in market. We continue to quote at $3,50 to $4 per bbl for prime, and $4,50 to $5 for choice.

SEEDS—Cloverseed is in fair demand with sales at $8,50 to $8,75, and Timothy at $3 to $3,25. Flaxseed is in active demand at $2,85.

POTATOES—In fair demand but unchanged. We continue to quote at $2,50 to $2,75 per bbl, as to quality.

DRIED FRUIT—Continues dull and neglected, with a liberal supply and a limited demand.

ASHES—Sales reported at 5¼ for common Soda; 5¾ for Refined; 8¼ for Pots, and 13¼ for Pearls.

PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE,
WEDNESDAY, March 27, 1867.

CRUDE—There was but a single sale reported to-day, five thousand barrels for April delivery (40 to 46 gravity) on private terms—supposed to be seven cents, which is a slight advance. The demand seems to be a little more active, and as a consequence the market is firmer, but buyers are shy, and hesitate considerably before making an offer, especially at any advance. For future delivery, sellers, generally, do not seem disposed to contract very freely at present prices, and indeed, the same is true of a great many of our refiners, who, owing to the uncertainty which overhangs the future, prefer to hold off and take the chances of the market. We have no late advices from Oil City—the eastern markets are reported quiet and unchanged.

REFINED—There was not a single operation of bonded oil to-day, at least, we have none reported, and while the market is quiet, prices are unchanged. Prime light straw to white may be quoted, in the absence of sales, at 21, on cars here, and 25½ to 26, delivered in Philadelphia—standard white about one to one and a half cent higher. For future delivery, there is considerable inquiry, but buyers and sellers are apart in their views and feelings, and as a consequence, we have no sales to report. Free Oil is dull and unchanged—small sales at 40.

ARRIVALS—The arrivals of oil continue very light, but as it is thought navigation will be resumed at once, the receipts will doubtless increase. Capt. Jas. Wilkins received 75 bbls; McKenna & Rodgers, 55, and D. Bly, 100.

Cincinnati Market.

CINCINNATI, March 27.—Flour unchanged and firm with a fair local demand; trade brands $11,50@13,50, and fancy $14@16. Wheat firm but quiet; No. 1 winter $2,90; spring $2,55. Corn in good demand and prices are higher. Oats firm with a good demand at 51c in bulk and 61@62c for sacked. Rye is held at $1,47@1,50, but 1,45@1,46 represent the views of buyers. Barley unchanged. Cotton dull again and prices nominal; middling 27@27½c. There was no demand at the close because of the unfavorable news from the eastern and English markets. Mess Pork was in speculative demand at $20,75, and all to be had at this rate was taken. It was held at $21 at the close, and some small lots sold at this rate. Bulk meats were offered more freely at the close; 700,000 lbs sold at 8c for shoulders and 10@10½c for sides. Bacon dull and easier to buy; sales of shoulders at 9¾@9⅞c, and 12¾c for clear sides. Hams unchanged, with a moderate demand. Lard very firm, but the demand is light; city was procured at a limited extent at 12¾c, but there was not much to be had below this; keg 13¼@13½c. Butter and cheese steady, Eggs 15@16c, with a good demand. Clover seed advanced to $9,10, being in light supply and in the hands of one or two parties. Timothy dull and prices nominal at $2,50@2,75. Flax held at $2,40@2,50. Groceries unchanged. Sugar 11¼@12½c for Cuba and 13@14c for Porto Rico. Molasses dull; New Orleans 85@90c. Coffee 25@27c for fair to prime.

RIVER NEWS.

The river was about at a stand last evening with eight and a half feet in the channel by the Allegheny marks. The weather continues cloudy and cold with indications of snow. The Allegheny was reported rising at Oil City yesterday, with twenty-nine inches at that point, and two feet and eleven inches at Franklin.

SPECIAL NOTICE.—The freight steamer R. C. Gray, will leave on Friday positively, and will take heavy freights to Cincinnati at 10 cents; Louisville, 17½ cents; light freights in proportion.

CAPT. W. B. ANDERSON.

The Urilda arrived from Oil City on Tuesday with a fair trip, and the Ida Rees was making preparations to leave for that point last evening.

The Kate Putnam left Cincinnati for Pittsburgh on Monday, and the Ezra Porter and Leonora were advertised to leave on Tuesday. The Ida Rees arrived at Cincinnati on Monday.

The "GREAT REPUBLIC" created quite a sensation at Louisville and New Albany, and the papers there are all free to confess that in point of elegance, taste, and comfort, her cabins excel anything on the Western waters, although some of them affect to believe that she will not equal the Richmond in speed. We again present extracts from these papers in regard to this boat, as our people are all deeply interested in the criticisms bestowed upon her:

Says the Louisville *Journal*, of Monday: The Great Republic is still at Portland. But one of her immense chimneys has been raised as the wind yesterday was too strong to allow the other to be put in position. If the weather is favorable it will be raised this morning, and the Great Republic will then proceed down the rivers with her merry cargo of passengers, and her enormous load of freight. She was visited yesterday by thousands of our citizens, who express, almost without exception, unbounded gratification with her magnificent cabin and luxurious state-rooms. The raising of her chimneys will improve her outside appearance very much, but she always will lack the symmetry and proportion necessary to impress those favorably who view her from the shore.

Says the Louisville *Courier*, of Monday: The Great Republic was to have departed to New Orleans last night, if she could have been got ready in time, but we incline to the opinion that her departure will be deferred until to-day. We hear of several parties who designed paying the boat a visit last night to have a moonlight, or rather a night view of the cabin when lighted up. We fancy it would look far more perfect in the subdued and changeable light of the chandeliers and reflectors than in the broad glare of the bright sun's rays.

There was a great crowd of people visiting the boat all day yesterday, the fine weather and the fine boat together making more travel to and from Portland than the town has had since the flood set in over a month ago. The street and railways were reaping the benefit, and were crowded, jam full, all day long, all out sight-seeing, admiring nature and art. The cabin of the Great Republic, as we have heretofore stated, is the great feature and source of attraction. It is truly magnificent in design, the center with its frescoed roof and artistic proscenium, or side panels filled with paintings and sketches of scenery, together with the many golden-hued chandeliers overhanging the rich carpeted floor, garnished with the finest furniture, makes it bear an Oriental appearance. The side aisles or naves are also unique and beautiful, forming perfect canopied arches from the sides to the center, which is supported with pillars, all in good taste, artistically designed and planned, and apparently perfect to the eye, and not gaudy, as one would infer by a mere casual glance. The interior of the cabin has a noble and attractive appearance, and we think the builder and designer, Chas. Gearing, deserves the full meed of praise.

Says the New Albany *Ledger* of Saturday: The Great Republic is the great center of attraction around the falls just now. Her exterior appearance is not very prepossessing. She looks unwieldy, and her outside painting is about the poorest job we ever saw. She is weather stained and smoke-begrimmed. But whatever ill impression one may receive from a view of her exterior, vanishes upon entering her really royal cabins. Therein is beheld, in the most harmonious profusion, the finest display of arch work, colonnades, and entablatures; finely painted landscapes and richly gilded brackets and moldings, that ever graced and gave effect to any steamboat cabin that the ingenuity and good taste of man has invented. It is not too much to say, indeed, to speak truly one must say, that the cabin of the Great Republic is the finest, the most harmonious job of the kind ever put upon a steamboat, either in this or any other country, and the designer and builder, Mr. Chas. Gearing, has won for himself an enduring fame, such as can not be gainsayed. We believe we can speak without prejudice with regard to the Great Republic. We are in no shape or manner interested in puffing her up, or in writing an unjust criticism upon her. She has the finest cabin ever put upon a steamboat. We do not like her outside appearance. She looks too low and squatty. She is not high enough for her length and width. She will look better, however, when her chimneys are up, and her wheel-houses undergo a little soap and water cleansing. She has immense carrying capacity. She has proved herself, already, possessed of a fair amount of speed, and her machinery, the Hartupee engine, works admirably. She will prove a popular passenger steamer, and, in regard to her accommodations and furnishing, she will probably have no rival. The Richmond's staterooms will be larger, and, it is claimed that that boat will be faster. That has yet to be demonstrated. Both boats—the Great Republic and Richmond—will be monuments of the enterprise and good taste of their builders. There is plenty of business for both, and there is therefore no cause for any ill feeling in the way of rivalry.

The Memphis *Avalanche*, of last Friday, says: The railroad packet Coquette, plying between Selma and Montgomery, on the Alabama river, exploded her boilers Wednesday night, killing and scalding a large number of passengers; the express messenger on board is also reported lost. The forward part of the boat was blown to atoms, sending into eternity many poor unfortunate beings who, a few moments before the accident, were full of life and pleasure. The scene, as reported to us, was heart-rending. A steamer was sent from Montgomery to the assistance of the survivors.

The remains of the United States frigate Brandywine, were sold at auction at Norfolk, Virginia, on Saturday morning, for $13,500, to a firm of wreckers, who will knock her to pieces for the old iron and copper she contains. The Brandywine was finished in 1824, about the time Lafayette made his second visit to this country. The United States, in compliment to him, placed the frigate at his disposal, and she made her first voyage in carrying him back to France.

The Glasgow, Capt. Geo. W. Johnston, will positively leave for St. Louis and Missouri River this forenoon, and passengers and shippers should bear this in mind and act accordingly. The R. C. Gray, Capt. Wm Anderson, is filling up steadily for Cincinnati and Louisville, and the Belleverñon, Capt. Darragh, is next in turn for St. Louis and Missouri River.

The Kenton, Capt. Dunlap, is filling up steadily for New Orleans, and will be the first boat out for that point. The Dubuque, Capt. Parker, is now receiving freight and engaging passengers for the Upper Mississippi, and will take her departure on Saturday week. The Robt. Moore, Captain Kerr, is due here from Portsmouth to-day, and will return as usual to-morrow evening at four o'clock.

The Argosy arrived and cleared for Cincinnati with a good trip, having a good freight list and quite a number of passengers. The Maggie Hays, Capt. Hendrickson, will leave as usual on Saturday.

The Leclaire came up to the main landing on Tuesday, and is now ready to receive freight and engage passengers for the Upper Missouri gold regions. The Luella, Capt. Hazlett, is also loading for the same points, and will positively leave on Saturday—passengers and shippers can rely on this.
